Abstract	The Office of Occupational Health and Safety is charged with general oversight of the university health and safety effort and with assisting University departments and offices in discharging their health and safety responsibilities. The records consist of proposals and surveys compiled by the Office of Occupational Health and Safety in regards to radiation safety measures taken to protect workers and researchers at the Princeton-Pennsylvania Accelerator, a particle research facility that operated on Forrestal Campus from 1957 to 1971.

Biography/History

The Office of Occupational Health and Safety is charged with general oversight of the university health and safety effort and with assisting University departments and offices in discharging their health and safety responsibilities. The Office of Occupational Health and Safety operates in four major areas; radiation safety, industrial hygiene, general safety, and biosafety. Major facilities falling under the Office's jurisdiction are the Princeton Plasma Physics Laboratory, and the Princeton-Pennsylvania Particle Accelerator (now defunct).

Collection Inventory

Proposals and Surveys, 1697-1972. 16 boxes (20 linear feet).

Scope and Content

Series 1 consists of proposals and surveys compiled by the Office of Occupational Health and Safety in regards to radiation safety measures taken to protect workers and researchers at the Princeton-Pennsylvania Accelerator, a particle research facility that operated on Forrestal Campus from 1957 to 1971.

Arrangement

Collection has been left in its original order.

Pondrom & Overseth, Proposal no. 140, 11.22.67 to 5.13.68, 1968. portion of 1 box.

Cronin Proposal no. 139, Started 5.20.67 , 1968. portion of 1 box.

Chen Proposal no. 138, Started 12.7.67, 1968. portion of 1 box.

Bartlett, Experimental Proposal no. 137, Started 11.66 to 3.6.67, 1967. portion of 1 box.
